DETAILED ACTION

- I. Claims status in this communication is corrected.
- II. Rejection of claim 6 under 35 USC 112, 2nd paragraph will not be maintained. Applicant has explained the substance of claim 6 to comprise flavonoids and other phenolic constituents.
- III. Applicant's arguments, see paper, filed 1/9/06, with respect to the rejection(s) of claim(s) 5 under 35 USC 112 and objection to claims 3 and 9 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection / objection is made below.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Cervelle et al (USPN 4460578; 7/17/84). Cervelle teaches an extract comprising flavonoids and phenols-acids. See abstract, claim 1. In a claim to an extract (composition), the source from which it is derived has no patentable significance.

Allowable Subject Matter

Claims 1-4,7,9-12,14,15 are allowable. The prior art does not teach or suggest the instant methods of using compound of formula I.
